# TEENS DRIVE SMART

TEENS DRIVE SMART DRIVING EXPERIENCE

Each time your child grabs the car keys, they're taking an enormous responsibility into their hands. Getting behind the wheel represents freedom and maturity, and requires a high level of care and safety. Yet, most teens don't think about the power they hold when they put the key in the ignition.

Our driving clinic will simulate real life situations, focusing on vehicle dynamics, smart driving choices and eliminating distracted driving. Each session combines classroom instruction with hand-on driving exercises - including a skid pad - to teach defensive driving skills and reinforce decision making on the road.

Plus, spending time behind the wheel of a BMW with a professional precision driver as your instructor is not a bad way to spend part of your weekend.

It's fun. It's free. Most of all, it's an important first step for a lifetime of smart driving.

**Chicago, IL: May 17 - 18, 2014 @ Six Flags Great America**

**Morning and Afternoon Sessions on Saturday and Sunday** (Space is Limited)

**REGISTER NOW AT: [teensdrivesmarttour.com](http://teensdrivesmarttour.com)**

Open to drivers aged 21 and under with a valid license or permit.

*"Allowing new drivers to experience things in a controlled and safe environment instead of in a real life emergency situation for the first time was absolutely priceless! I really feel you are saving lives."*
